Galen,

Your comment on the second paragraph at the bottom could be misleading. Duties grant to officers for the Osage tribe by the '06 Act could mean that we will be getting a chief and assistant chief and all authority over the trust property.

Perhaps you could clarify which duties you mean. I realize that you may think our shareholders could print their own copy of the ONCR 11-14 but not everyone reading our newsletter has a computer.

The last I remember, we have about 4500 shareholders and we send out about 1700 newsletters electronically.

Cynthia

Cynthia, I copied the language of that sentence pretty much word for word from that in

ONCR11-14. The "officers" listed in the 06 act included a Chief and Asst. Chief as well as a Council. So if is ratified, 11-14 will convey to the Osage Minerals Council all the minerals duties and responsibilities previously granted to all 06 act officers, including those previously performed by the Chief and Asst. Chief.
