Power Point Slides

Finally the power point slides have been copied in an upright position and are available as an attachment to this news flash.

They are also available now on my website at: www.jenny2010.com.

Hopefully soon I will get the Pay Pal set up on my sight also. We shall see!

My Website was updated this morning so be sure to tell folks to see both sites for important information.

Important Message!

A few people didn't understand yesterday's newsletter. It is crucial that all Shareholders understand why the book and the "Story of IETAN" is of dire importance to you.

Wilson Pipestem is IETAN and as many of you know was involved in the acts of the Gray Administration. It is because of these acts that you are fighting to keep control of the Mineral Estate!

The information in the book, LYNCHED, is a documented factual account of how IETAN works which discusses a chain of events involving IETAN and Saginaw Chippewa tribe among others.

The attachment to the newsletter, "The IETAN Story" explains what IETAN has been up to for many years and how they have managed to weave themselves into the web of the U.S. Senate, the U.S. House of Representatives, the Department of the Interior, the Department of Justice, the National Indian Gaming Commission and even the White House.

Using tribal money amounting to exuberant sums, payment for favors have resulted in exactly what we are faced with here. H.R. 2912 signed into P.L. 108-431 and the hostile takeover of the Osage Mineral Estate.

You will see names listed in the attachment that I sent to you yesterday such as Allison Binney, Dale Kildee, John McCain, and the Senate

Committee on Indian Affairs and on and on.

All of those just mentioned, I wrote and I called in 2007 and 2008 because of H.R. 2912 only to find out today, they are a part of the IETAN deal.

Now I know why I didn't get anywhere with the BIA or any of the others mentioned here!

PIPESTEM

Remember! Wilson Pipestem is the attorney for the Highest Posted Price lawsuit. Recall a couple of years ago when Linda Heskett and others filed a Motion to Intervene? At that time Pipestem wrote in his legal briefs that the Osage Nation would be the recipient of the settlement not the Shareholders.

This is exactly what IETAN does! Not just to us but a lot of other tribes! It's a racket –

This is where the nonsense is coming from and he is STILL the attorney for the HPP case and closely related to Aiken & Gump which represents the Reservation Case!

This is why yesterday's Newsletter is important for you to understand and it is EXTREMELY important that the Mineral Council is aware and that they wake up and get behind this lawsuit! **No Choice**
