

FOLLOW UP FROM PREVIOUS NEWSLETTER

Attached are the minutes of the Minerals Council meeting held Friday, August 14, 2009.

I have also attached a letter from Jim Gray to Archie Mason regarding a delegation of Osages jaunting off to France.

I failed to mention to you previously some important information about "Plan B." If you are planning to pitch in

and do your part to inform all Osages across the country, you will have to provide the editor of the newspaper your contact information. The newspaper will require that you provide this information for verification reasons.

I also failed to mention that a Letter to the Editor and/or an Article will not cost you anything. (See attachment)

Any of you who are interested in joining the Osage Shareholders Association, now would be a good time to do it. They are offering free membership until January 2010.
