*"When the people fear the government, that's tyranny.
When the government fears the people, that's liberty."*

Thomas Jefferson

Absentee Voters

Changes and confusion are consistently consuming this election process and such occurrences are threatening the will of the absentee voter. All absentee voters who completed the application for a Ballot and sent it to the Election Board are encouraged to call the Election office to verify they have received your request.
(918-287-5286)

A thorough and persistent Texas Osage discovered that the e-mail address on the Request Form had been changed and his request apparently landed in cyber space. If you e-mailed your request please make that phone call to ensure that you are on the list to receive your absentee ballot.

The application can be printed from the Election Board Web page at www.osagetribe.org or you can call 918-287-5286 to have one mailed to you. All requests must be received by May 18th. If using the U.S. Postal service it would be wise to mail your request back by May 7th in order to insure it is received by the deadline.

The Election Board staff should be commended. Recall that their positions were delayed for months due to the neglect of the Executive Branch. Please keep this in mind when seeking assistance from them. They are the kindest most helpful group of people I've had the pleasure of working with.

Vote Wisely

Contrary to the election process and the many changes occurring;

my thoughts, ideas and assurances regarding service to you as a Congress member have remained consistent.

Those who have followed my writings these past 11 months can have no doubt that my entire agenda is to follow the law, adhere to the rules and regulations, expect honesty, accountability and integrity from all elected officials and employees.

These expectations are not radical nor are they unrealistic. These expectations are what all Osages should embrace and expect from this government. Until we fill our house with individuals capable of accepting and carrying out these qualifications, this current situation will not change.

Today we are self destructing. Tomorrow we must elect quality individuals who have the desire, ability and fortitude to repair the wounds and stop the bleeding. We must elect those who understand that the recovery process will take time and that further pie in the sky spending of our currently jeopardized revenue will result in a fatal infection.

On more than one occasion I have indicated that the U.S. Government has purposely promoted and supported this path for all Native American Tribes. I suggest once again that the underlying reason is to watch each tribe self-destruct thereby relieving them from further responsibility. I further suggest that the U.S. Government has observed tribes across the country long enough to conclude

that there are more individuals such as we have leading our government today than there are those of us honestly concerned for the welfare of the people as a whole.

I ask that you consider seriously your voting decisions and that you realize that the future of the Osage as we've known it lies in your hands. Vote wisely.

Seeking Advice

Many of you have asked that I help you to make good selections. This of course places me in a vulnerable situation that could cost me votes of which I may otherwise have earned. I ask that you respect my situation and know that I am honored to know you value my opinion.

Because all of us are still learning about the candidates it would be unwise in my view to expect to make informed decisions at this time. We still have time to study and learn all we can about the candidates and should use this time wisely.

I most definitely want to make clear the handful of candidates that I know I'm voting for at this early stage of the game.

For Congress I will without a doubt vote for Wm. "Kugee" Supernaw, John Free, Jr., Daniel Boone and of course myself, Jenny Miller.

I strongly recommend Cynthia Boone, Melvin Core, Curtis Bear and John Pangburn for Minerals Council.

*"When the people fear the government, that's tyranny.
When the government fears the people, that's liberty."*

Thomas Jefferson

Obviously these firm decisions still leave open seats in the Congress and Minerals Council as well as Chief and Assistant Chief.

As time goes on and I become confident in the balance of the candidates I, like you will be able to make more informed decisions. I believe there are several other good candidates offering to serve therefore don't mistake their absence in my recommendation as rejection.

I will watch for knowledge on the issues and consistency in their agendas. I'll do my utmost to find integrity, dedication and ability in their hearts and it is then that I'll wisely mark my ballot.

Rest assured that any candidate participating in stealing & destroying other candidate campaign signs or other materials as well as crashing candidate's websites will not qualify and are not worthy of representing our great nation.

It is unfortunate that such actions are occurring but not surprising when taking into consideration this current administration.

The Bright Side

All in all my time spent for nearly a full year has reaped great rewards and promises even more to come.

Having had the opportunity to visit with the many Osages across the state has been positively overwhelming and I've enjoyed every minute of it.

Especially elating for me is meeting old, old friends from yesteryear and the good ole Indian Camp days. What a true and fun experience that has been for me.

I insist on giving a shout out to the big "B" and Kenny Perry. These guys have grown old while I maintain my youth!

Though we all have gone our separate ways the memories of living at the camp won't leave us and can't be beat. For this I am truly grateful.

Post 198

It's no secret that many Osage men and women have served in the military. Such honorable service is yet another tradition held by our families and it is with great pride that we boast of our ancestors' participation in the Civil War, WWI, WWII, and Korea. Many served and lost in Viet Nam and today Iraq, Afghanistan and points between and beyond.

It is a secret however that with quiet, humble pride, our American Legion Post 198 continues to stand ready and tall to serve their fellow soldier upon his death with dedication and without fail.

My Dad has been a member of Post 198 since WWII where he served alongside his most beloved buddy Russell Warrior. Upon Russell's death just a few days ago, there they were, the broken Veteran's of days gone by, honoring this fallen hero.

Yet today, in the place of the fine young and long since passed

photos of the many Veteran's of yesterday, the walls at what was once the Post 198 building is now the Osage Nation Cultural Center.

The photos of our fallen soldiers are gone and I am truly sad about this.

I recall looking forward to seeing the photos every time I entered the building and wishing there were more. Where did they go?

Kenny Peery is one of those dedicated members and there are others I know I can count on seeing at the somber, sad sending off of a fellow Veteran. For this we should all be thankful, proud and indebted.

If elected into Congress, rest assured that I will do my utmost to ensure that Post 198, our Veterans and those currently in Active Duty will be held in the highest of esteem and that adequate appropriations will be maintained with respect for each and every one.

The ceremony performed is dying across the country. It is as much a part of tradition as any other in our Osage nation. Join me in supporting our Post 198.
