July 1, 2010

*"When the people fear the government, that's tyranny  
When the government fears the people, that's liberty."*

*Thomas Jefferson*

## REPORT

No doubt a major issue has come up regarding discrepancies in qualifications for candidates. The bigger picture however is that these discrepancies lead us to the most crucial of all qualifications when looking at honesty, credibility and integrity. Without these three qualities, a lifetime of education means nothing.

I am truly saddened, just as I'm sure most of you are that the issue of possible embellishment of credentials has become evident. Feelings aside however, we must accept these facts, deal with them head-on and make informed, intelligent decisions for the sake of the tribe and our future.

Rather than providing a comprehensive report on this matter, I have attached documents for your review that will assist in better understanding where and how this information came about.

Recall in the June Newsletter (6), a comparison chart was provided. This report was created on June 27, (4 days

ago). This is when I discovered the questionable education claims. Further research was completed and the end result was that there were even more embellishments than I had previously discovered.

As I have this past year, I continue to believe it is the duty of all Osages to report factual information to the citizens of the tribe in hopes of saving ourselves from collapse. Therefore, though this particular report is not of my liking and certainly provides no happiness for me, I believe you have a right to know about it.

I recently made this statement on the matter: "On any given day, when push comes to shove, I'll sacrifice a hand full of Osages if necessary, in order to save 13,000.00."

I would just ask that you keep in mind that this situation is not of my making but the making of the candidate. I have simply reported it and or called it to the attention of the voters who have every right to be made aware.

The very Biography was for public viewing on John's website for many months, the pamphlet was distributed to the citizenry by the candidate himself. The information was there for the taking and is public information. There is nothing underhanded or vindictive going on here. The facts of it all are merely being questioned and rightfully so.

\*\*\*\*\*

The Tallchief, Proctor and BigHorse campaigns had no hand in this report whatsoever. Those of you who know me and have followed my reports are fully aware that I work alone on these matters and trust my research only. If there are no documents, you'll get no report from me. This is my standard and a requirement I've made for myself for many years.

I have turned this information over to the Osage News in hopes that they will conduct an investigation.
