# The Mission of Networking

## And the Purpose

The list provided of cities and states that house Osage Citizens is for the benefit and hope that all Osages within these states will consider networking with one another via the Internet, whether it be e-mail, face book or blogs.

The possibility of a “home base” is real and will most likely be considered in the near future. Even so, it would be in your best interest to communicate with individual groups in order to secure that Osages in your area are informed of time sensitive and up to the minute news in government affairs.

This list is a direct list of cities that have visited my website therefore indicates that Osages with access to the Internet live in these areas. One person offering an e-mail address, face book page or forum to begin this process of networking in your area could make a major difference in Osage Government affairs.

I hope you will consider reaching out and doing your part to make a positive difference for the welfare and success of our government.

*“When the people fear the government, that’s tyranny.  
“When the government fears the people, that’s liberty.”*

*Thomas Jefferson*
