July 21, 2009

Dear Readers,

*As you are aware, my policy is to **not** relay information to you without having documentation to back up a claim.*

Because I am a firm believer in this policy and because I personally prefer to witness similar courtesies; I will have to delay reporting on the Shareholders meeting of Sunday, July 19.

*Most of you are familiar with the Osage Shareholders Forum. I refer you to that forum to learn about some very positive steps that were taken at the meeting. If you are not familiar with the forum, you can view it by placing your pointer on the blue address and pressing **ctrl** (lower left on your keyboard) and click your mouse at the same time on this address:*

http://www.osageshareholders.org/disc46_frm.htm

In the mean time, I am working to obtain documents regarding “old business” that I believe to be of importance to you prior to voting in the 2010 election. Rest assured that the information I refer to is of no immediate threat to your interest in the Minerals Estate; therefore, don't allow speculation to cause you concern.

I can tell you that I visited with a former Election Board member and have direct assurance that they have not received notice of being sued by Jim Gray or the Osage Nation as of Sunday, July 19, 2009. I am aware that some of you are interested in this

subject so; I report this for your information.

You seem to have a very competent and dedicated group of people leading the OSA. Roy St. John, Sara Bigheart, Mary Lee Evans and Galen Crum were at the top of their game yesterday and I believe the Shareholders can reap some positive benefits from this group.

Geoffrey Standing Bear and Amanda Proctor, both attorneys who have worked for other tribes offered beneficial input on the issues as did Congressman Kugee Supernaw. Cynthia Boone and Talee Red Corn were both in attendance and provided enlightening information regarding the Minerals Council. It is from Talee and Cynthia that I received information of which I search today for documentation.

I encourage all Shareholders to support this Association from this day forward. I was there for four hours and at no time did I feel I was wasting my time.

We are truly at a crucial time for unity. Resolve to be a part of the association that works to protect the interest of the Osage Shareholder

Sincerely,

Jenny Miller
